

Teaching is my passion. My aim is to build up career in teaching. As a passionate educator, I believe that teaching is not just a profession, but a calling. It is the art of igniting curiosity, nurturing intellectual growth, and shaping the minds of future leaders. My journey in education has been defined by an unwavering commitment to instill in students not only the knowledge of mathematics, but also a deep appreciation for its elegance and relevance in the world around us.

Dedicated and accomplished Mathematician with a strong foundation in both theoretical and applied mathematics. Possesses a solid academic background, holding a BSc Hons and MS in Mathematics from Mawlana Bhashani Science and Technology University.

Proven track record of academic excellence, highlighted by outstanding performance in SSC and HSC examinations. Committed to the pursuit of knowledge, consistently seeking opportunities to deepen understanding and apply mathematical principles to real-world challenges.

Currently contributing expertise as an adjunct member of the Department of Electrical and Electronic Engineering (EEE) at Manarat International University since August 2023. Demonstrates exceptional teaching and mentoring abilities, fostering a conducive learning environment for students to grasp complex mathematical concepts.

### **Strengths:**

**Pedagogical Prowess:** Proficient in designing and delivering engaging lectures, cultivating a passion for mathematics among students.

**Analytical Thinking:** Expertise in problem-solving and critical thinking, with a keen eye for detail and precision.

**Research Acumen:** Demonstrated proficiency in conducting independent research, contributing to the advancement of mathematical knowledge.

**Collaborative Approach:** Proven ability to work effectively in interdisciplinary teams, leveraging diverse perspectives to achieve common goals.

Passionate about furthering academic excellence and making a positive impact on the mathematical community.
